

“Go Pro” with Scubaventures

Why?

IDC EVOLUTION

- More Options
- On-Line Study
- More Workshops
- Fewer Lectures
- More Real-World

Get a Life!
GO PROSM

ARE YOU READY FOR SOMETHING NEW?

Looking for something more exciting than a 9 to 5 desk job? Want to share your love of diving with others? Now is the time to “GO PRO” with PADI’s new “IDC Evolution”.

Remember when you first became a diver?

Remember the excitement and awe?

Did your scuba instructor change your life forever? YES!

Do you want to share the excitement of diving with others; do you want to change their lives?

Becoming a PADI Instructor gives you the opportunity to do just that

PADI’s IDC Evolution is the latest in PADI’s industry leading training programs for Diving Professionals. You now have more options in your Instructor training.

You can choose to do a portion of your training using PADI’s state-of-the-art on-line e-Learning System.

There are more interactive workshops and fewer lectures. You can develop your skills by “doing” and interacting with the other candidates not just listening to lectures. Have discussions with your Course Director and bounce ideas off of each other.

CHANGE SOMEONE’S LIFE TODAY!
PADI Instructors change people’s lives on a daily basis. They introduce them to a lifelong love of the undersea world by sharing their love of diving.

What can I expect?

If you choose on-line study, you'll cover these topics:

- Learning, Instruction and the PADI System of Diver Education
- General Standards and Procedures
- Risk Management
- Marketing Diving
- Start Diving
- Teaching PADI Specialty Courses
- The Business of Diving
- Keep Diving
- How to Teach the RDP

(If you choose not to do on-line study for these topics, you will complete them in person with your course director. Ask for the price and scheduling changes for this option.)

You can choose to review for your Theory examinations on-line, using PADI's e-Learning System. You'll cover:

- Diving Physics
- Diving Physiology
- Diving Environment
- Diving Equipment
- The Recreational Diver Planner (RDP)

(If you choose not to do on-line study for these topics, you will complete them in person with your course director. Ask for the price and scheduling changes for this option)

After completing the on-line prerequisites, you'll start working with your Course Director to develop your teaching skills and style. You will also become familiar with all of the PADI courses. You'll cover the following topics:

- Developing Knowledge Development Presentations
- Teaching in Confined Water
- Conducting Open Water Training Dives
- General Standards and Procedures (Part 2)
- The Open Water Diver Course
- The Adventures in Diving/Advanced Course
- The Rescue Diver Course
- The Divemaster Course
- Risk Management (Duty of Care Workshop)

Are you ready to "Go Pro"?
