

DSAT Gas Blender: Enriched Air and Trimix

You might be certified to blend gas, but do you want to teach others to provide gas mixtures? If so, the DSAT Gas Blender Instructor course might be just what you're looking for. The DSAT Gas Blender Instructor course is one of the most informative and comprehensive programs

available, incorporating instructional philosophies and course goals that directly address the demanding nature of gas blending.

If you are a PADI Enriched Air instructor and hold a DSAT Gas Blender certification or hold a gas blender certification from another qualifying agency you can enroll in this exciting instructor course. You'll learn the principles and procedures for oxygen cleaning, oxygen service and oxygen compatible air. You'll also learn how to conduct the DSAT Gas Blender course.

The course tuition fee includes the Gas Blender instructor manual.

About Scubaventures:

Scubaventures is a dive training business that offers PADI Courses from Open Water through Instructor. I teach all of the PADI Courses, plus specialty diving courses in 21 areas. In addition, I teach all of the Divers Alert Network (DAN) programs dealing with handling diving related medical issues. I am also an instructor trainer for the DAN programs. I teach the Emergency First Response First Aid and CPR Courses and am also an instructor trainer for that program as well. I am also an associate member of the Undersea and Hyperbaric Medical Society. I routinely take continuing education programs in the fields of diving and diving instruction to keep myself up-to-date with the latest information and techniques for your benefit.

For more information on the course or to schedule a course, contact John Meyer, PADI Course Director at 206-300-0318 or e-mail me at [lets_dive \(at\) scubaventures-diving.com](mailto:lets_dive@scubaventures-diving.com).
